Re: Request for Expressions of Interest (RFI)
Planned Production of Mixed-Income Housing
Response Deadline – June 13, 2007 at 1:00 PM

Interested parties are advised that available for public inspection in the Engineering Department, 100 Maple Avenue during normal business hours is a report entitled "Town of Shrewsbury, MA – Comprehensive Wastewater Management Plan/Environmental Impact Report" (Report) dated March 2007. Contained within the Report is a wastewater flow update reflective of the current sewer allocation agreement between the Towns of Shrewsbury and Westborough relative to sewer system availability limited by the permitted capacity of the existing wastewater facility.

While the RFI outlines that the Town of Shrewsbury is open to proposals within residential districts, such developments should not depend upon access to the municipal sewer system based upon the allocation study discussed within the report and supporting documents. The allocation study advises that expansion of the existing sewer system is severely restricted.

Interested parties are advised to consult with the Engineering Department relative to sewer capacity requirements of any proposal.
